BULLITA

ROSATO

VALLE DEL TIRSO IGT

(Typical Geographical Indication)

BULLITA is a lifestyle.

It stands for a wild and untamed style, encompassing the sea, powerful waves, sandy beaches, rocky formations, peaceful ponds, and the cherished flora and fauna nurtured by an ancient and timeless land. The distinctive scents and flavours of this land gracefully permeate our wine, expertly combining delicate floral and fruity notes that result in a strong and lasting taste. This remarkable blend evokes the robust flavours reminiscent of the Mediterranean vibrant regions.

Grape variety: 80% Nieddera, 20% other native vines. In this interpretation, the versatile and significant grape variety, Nieddera, shines with its potential in crafting rosé wines. It is elevated by the harmonious blend with other red grape varieties that are characteristic of the lower Tirso valley.

Soil: Composed of alluvial and sedimentary elements, a sandy loam mixture, with the presence of limestone.

Vineyard extension: 15 Ha.

Training form: Guyot and spurred cordon.

Fertilisers: Natural organic manure type.

Pesticides: Traditional; sulphur and verdigris.

Weeding: Mechanic only.

Fermentation: Vinification in white. The clear must ferments in steel at low temperatures.

Refinement: It refines for short periods in a cement tank.

Description: A soft pink colour, almost onion skin; the nose is intense, very fine and delicate, with clear fruity, citrus and floral references. On the palate, the wine presents a dry and rich profile, marked by remarkable tastiness and an enjoyable freshness. The call of the sea immediately takes you back to its homeland.

Pairings: Ideal wine as an aperitif, also perfect if accompanied with seafood or meat appetizers and crudités.

Alcohol content: 12 % vol.
